

## Public Notice – Environmental Permit

**PURPOSE OF NOTICE:** To seek public comment on the proposal to utilize an alternate groundwater point of compliance (APC) at the below described solid waste landfill with a permit issued from the Department of Environmental Quality.

**PUBLIC COMMENT PERIOD:** July 15, 2014 to August 14, 2014

**PERMIT NUMBER:** SWP 456

**FACILITY NAME AND LOCATION:** The VCI Archer Creek Closed Industrial Landfill is located on Mt. Athos Road, approximately 1.2 mile north of Route 460 and approximately 1.6 miles east of Route 29, in Campbell County. The landfill is located on the Kelly, VA USGS 7 ½-minute topographic quadrangle map.

**DESCRIPTION:** The landfill has requested a variance to locate one or more of its groundwater monitoring wells somewhere other than at the edge of the landfill waste mass as is normally required by the Commonwealth's solid waste regulations. The applicant has demonstrated that moving the location of the monitoring well(s) further from the edge of the waste mass will not result in an unreasonable risk to public health or the environment and will result in a facility design that is equally protective of human health and the environment. If approved, this variance will allow the facility to locate MW-18 334 feet downgradient from the edge of the waste mass, but the well will remain located on landfill property.

**HOW TO COMMENT:** DEQ accepts comments by e-mail, fax, or postal mail. All comments must include the name, address and telephone number of the person commenting and be received by DEQ within the 30-day comment period defined above. The public may review all related variance petition documents at the DEQ Regional Office named below.

**CONTACT FOR PUBLIC COMMENTS, DOCUMENT REQUESTS, AND ADDITIONAL INFORMATION:** Michael Sexton; Groundwater Remediation Specialist, Blue Ridge Regional Office; Phone: (434) 582-6233; Email: [michael.sexton@deq.virginia.gov](mailto:michael.sexton@deq.virginia.gov); Fax: (434) 582-5125.
